EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tim Ford on 16 March 2005.

The application has been amended as follows:

Cancel claims 18, 20, 24, 26 and 27.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Regarding claims 1-11, 14-17 and 29, the most relevant art of record are Finney (US 4,307,723) and Migachyov (US 6,183,413 B1). Finney teaches a ureteral stent that may include a valved terminus in to be inserted at the bladder end in order to prevent reflux, which addresses the same problem that the instant invention purports to solve (column 5, lines 34-44). Magachyov teaches a valve for bladder control devices that is structurally similar to the claimed valve structure. However, there is no suggestion by either reference to combine them so the a ureteral stent having a first lumen, and a valve comprising a second lumen attached at the end of the first lumen, the valve including a shaft within a socket, and a stopper attached to the shaft, the stopper blocking the second lumen when exposed to reflux pressure.

Regarding claims 22, 23, 25 and 28, Migachyov fails to teach a shaft and socket tapered inwardly to prevent removal of the shaft from the socket.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
